UTM Primary Clinic Undergoes Accreditation Process

[Lead – Summary]

The Primary Clinic of Universitas Trunojoyo Madura (UTM) has recently completed an accreditation process by the Indonesian Clinic Association Accreditation Body (LPA ASKIN), aiming to improve its healthcare service quality.

[Body – 5W+1H Structure]

Who:

The accreditation process involved the UTM Primary Clinic and two surveyors from LPA ASKIN: Dr. Hj. Yulia Kartika, M.M., and Drg. Retnowati Handayaningroem, M.M. It was also supported by university leaders and clinic staff.

What:

The survey aimed to assess the clinic's services, focusing on medical quality, patient safety, facility management, and administrative systems.

When:

The accreditation visit took place over three days, from April 23 to April 25, 2025.

Where:

The event occurred at the Primary Clinic of Universitas Trunojoyo Madura, located in Bangkalan, East Java.

Why:

The process was conducted to ensure the clinic meets national health standards and to encourage continuous improvement in providing safe and effective healthcare services.

How:

Surveyors conducted document reviews, on-site observations, and interviews with clinic personnel. The process was met with full support from university officials, including Vice-Rector Ari Basuki, S.T., M.T., and Dr. Siti Nurfitria, M.Biomed., the clinic's operational head.

[Closing]

With the completion of the accreditation process, UTM hopes the clinic can serve as a model for campus-based healthcare, offering quality services to both the academic community and the general public. The final results will be announced after validation by LPA ASKIN in the coming weeks.
